

Software Assurance Training Vouchers (SATV's) and Global Knowledge's Training Modalities

Global Knowledge are the only training provider to offer 2-4-1 SATV's for delegates attending either virtually or in-class at one of our training centres. We are committed to providing quality training to our delegates, with their choice of convenient public training scheduling options, flexible delivery formats, customised private programmes and continuous learning support to accelerate their success. To view our training modalities click [here](#), or to view our training locations click [here](#).

Virtual and In-Class Training

Price per day

MS Total Access

5 SATV's

On-site Company Closed Courses

SATV pricing available on request

Part-funding options available

MOC

Price based on course duration

Our training centres are equipped to the highest standards to ensure that delegates are comfortable and at ease for the duration of their course. We also have the pleasure in providing exclusive digital content and virtual classrooms, as well as IT Technical Training in return for your SATV's. As Softcat's Elite Training Partner, we aim to help you maximise your EA Benefits.

These carefully selected training modalities are designed to give you ultimate flexibility when redeeming SATV's. Anywhere, anytime, almost any technology or business training topic, taught by expert instructors, the Global Knowledge Virtual Classroom Live Learning Experience is unlike anything you've seen before. Our digital modality enables delegates to experience online learning that blends the best of e-learning and instructor-led training.

GK Digital Learning provides on-demand access to authorised content, reinforcement exercises and labs, as well as connections with subject matter experts. Together in a feature-rich environment, providing access to industry-validated content and a variety of resources that ensure your success, whether you need a single course or access to a collection of courses.

With many clients adopting O365, redeem your SATV's for end-user training around the new O365 Applications. Alternative training areas are: **O365 End User Training -- What's New in Office -- Office Integration -- O365 The Big Picture -- SharePoint -- Teams -- Planner -- Outlook Online -- Planner**
