

## IBM Security Training - Your First Line of Defence

IBM offers a deep enterprise security portfolio customised to your company's needs. Unmatched in ability to help you disrupt new threats, deploy security innovations and reduce the cost and complexity of IT security, IBM can safeguard your most critical data from compromise.

As cyber-attacks diversify and intensify, an educated workforce is your organisation's most powerful opportunity to progress beyond basic security fundamentals and get ahead of emerging threats. Our comprehensive curriculum for IBM Security training equips professionals to manage your company's complex protection strategies as well as today's constantly evolving risk.

Learn from our expert instructors how to secure confidential data with Guardium, detect anomalies with QRadar SIEM and more! We have a host of training courses available, whether you are at the start of your IBM Security journey or if you are looking to add to the skills you have already acquired.

## IBM SECURITY QRADAR TRAINING

IBM QRadar allows you to retrace the step-by-step actions of a potential attacker, and quickly and easily conduct an in-depth forensics investigation of suspected malicious network security incidents. It reduces the time it takes security teams to investigate QRadar offense records, in many cases from days to hours—or even minutes. It can also help you remediate a network security breach and prevent it from happening again.

Our expert instructors can take you from QRadar Foundation training right through to advanced QRadar training at a pace that suits you.

Course Title	Course Code	Duration
IBM Security QRadar SIEM Foundations	BQ104G BQ104XG (Digital Module SPVC)	3 days
IBM Security QRadar Advanced Topics	BQ204G	2 days

## IBM DATA SECURITY TRAINING

IBM Security Guardium is a comprehensive data security platform that provides a full range of capabilities – from discovery and classification of sensitive data to vulnerability assessment to data and file activity monitoring to masking, encryption, blocking, alerting and quarantining to protect sensitive data.

Guardium helps secure sensitive data across a full range of environments – from databases to big data, cloud, file systems and more. Guardium also provides automated analysis to quickly uncover internal and external risks to sensitive data. The solution also easily adapts to changes in your IT environment – whether that includes adding new users, requiring more scalability, or adding new technologies.

To work towards a more secure approach for your company's sensitive data and to understand how data security applications can work to your advantage, the following course is available from Global Knowledge :

Course Title	Course Code	Duration
InfoSphere Guardium V11 Foundations	8G101G 8G101XG (Digital Module SPVC)	3 days

## IBM IDENTITY MANAGEMENT, ACCESS MANAGEMENT AND VERIFY SOLUTIONS

Today's organisations need to govern and enforce user access across multiple channels, including mobile, social and cloud. At the same time, they must address business needs such as role management, compliance and audit reporting and integration of various user populations.

IBM Security Identity Management, Access Management and Verify Solutions help strengthen compliance and reduce risk by protecting and monitoring user access in today's multi-perimeter environments.

The following courses will give you the confidence to apply multi-channel user access across your organisation and continuing the flow of flexible collaboration across your teams :

Course Title	Course Code	Duration
IBM Security Directory Suite Foundations	TW255G	4 days
IBM Security Directory Server 6.4 Fundamentals	TW085G	2 days
IBM Security Verify Access Foundations	TW108G	3 days
IBM Security Access Platform Foundations	TW107XG (Digital Module SPVC)	3 days
IBM Security Identity Gouvernance & Intelligence Foundations	TW401G	3 days

## ESSENTIAL IBM SKILLS FOR YOUR EVOLVING BUSINESS

At Global Knowledge, we understand that IBM solutions play a fundamental role in how you conduct business. A pathway to your most strategic goals, enablers for organisational agility - the gateway to innovation, fundamental to your technology ecosystem. However, true success isn't achieved without people, and at Global Knowledge, it's our passion to help companies around the world educate and develop employees so they're able to meaningfully contribute to the best possible business outcomes.

That's why IBM have trusted us since 2013 with the education of their employees, partners and customers. It's our focus on learning and our expertise when delivering high-quality skills and training programmes that sets us apart from other providers. From Analytics to Systems solutions, and everything in between, we are committed to helping you achieve the maximum return on your IBM investments and accelerate your success.
