

## The Experts in Microsoft Windows Server 2016 Training

### Build your organisation's future with Windows Server 2016

Would you like to reinforce your existing server security? Be more resourceful and flexible within a software-defined datacentre? Revolutionise quicker with cloud-ready application workloads?

For organisations that are looking for security, efficiency and innovation—Windows Server 2016 provides it all. Windows Server 2016 is the cloud-ready operating system that supports your current workloads while introducing new technologies making it easy to transition to cloud computing at a pace that suits your business. Microsoft Windows Server 2016 training from Global Knowledge, the leading Microsoft Gold Learning Partner, will ensure you have the capability and resources at your fingertips to build a more successful and robust IT solution at the very core of your business.

Get your hands on the Windows Server 2016 training portfolio, available today at Global Knowledge. Demonstrate your capabilities by achieving your MCSA Windows Server 2016 certification.

#### **Installation, Storage and Compute with Windows Server 2016 (M20740)**

Designed for professionals who will be responsible for managing storage and compute by using Windows Server 2016, whose job role it is to understand the scenarios, requirements and storage and compute options that are available and applicable to Windows Server 2016.

#### **Networking with Windows Server 2016 (M20741)**

This course provides the fundamental networking skills required to deploy and support Windows Server 2016 in most organisations. It covers IP fundamentals, remote access technologies plus more advanced content including software defined networking.

#### **Identity with Windows Server 2016 (M20742)**

Within this five day course we will look at:

- How to deploy and configure Active Directory Domain Services (AD DS) in a distributed environment
- How to implement Group Policy including how to perform backup and restore
- How to monitor and troubleshoot Active Directory related issues with Windows Server 2016

Additionally, this course teaches how to deploy other Active Directory server roles such as Active Directory Federation Services (AD FS) and Active Directory Certificate Services (AD CS).

#### **Upgrading Your Skills to MCSA Windows Server 2016 (M20743)**

Deliver more business value and demonstrate your mastery of the principal set of Windows Server 2016 skills.

Within this course, we look at how to implement and configure new Windows Server 2016 features and functionality. Designed for IT professionals who want to upgrade their technical skills from Windows Server 2008 or Windows Server 2012 to Windows Server 2016. This course presumes a high level of knowledge about previous Windows Server technologies and skills equivalent to the Microsoft Certified Solutions Associate (MCSA) Windows Server 2008 or Windows Server 2012 credential.

## MCSA Windows Server 2016

Earning an MCSA Windows Server 2016 certification qualifies you as a network or computer systems administrator, or a computer network specialist. It's as easy as 1,2,3! Pass all three exams to achieve MCSA Windows Server 2016.

Course Title	Course Code	Exam
Installation, storage and compute with Windows Server 2016	M20740	Pass 70-740
Networking with Windows Server 2016	M20741	Pass 70-741
Identity with Windows Server 2016	M20742	Pass 70-742

You are entitled to upgrade the following certifications to the MCSA Windows Server 2016 certification.

- MCSA Windows Server 2012
- MCSA Windows Server 2008

Course Title	Course Code	Exam
Upgrading your Skills to MCSA Windows Server 2016	M20743	Pass 70-743

### Are you leaving free Windows Server 2016 training on the table?

Has your organisation purchased a Microsoft software volume licensing agreement? If so, you may be eligible to redeem Microsoft Software Assurance Training Vouchers (SATV) and get free training for select Microsoft courses, including Windows Server 2016.

Software Assurance Training Vouchers provide in-depth technical classroom training for IT professionals and developers. These courses are delivered through a Microsoft Learning Partner and are developed by Microsoft experts to ensure effective and efficient deployment, management, support and adoption of new Microsoft software.

### How do you benefit from using Software Assurance Training Vouchers?

#### Employee skill enhancement

Improve productivity with training and support for your IT staff. Make sure your IT team is fully prepared to efficiently deploy, manage and support new software.

#### Reduced training costs

Training is already included within the Software Assurance programme. However, with SATV, you can provide technical training for your IT professionals and developer staff without impacting your budget.

#### Learning partner support

Global Knowledge can help create an optimal training strategy for your organisation and help you plan the most effective way to utilise your training vouchers.

#### Guaranteed pricing

Set pricing is included with your Software Assurance programme. One training voucher day equals one classroom-training day.

#### Authorised e-Learning

Microsoft On-Demand titles are now eligible for purchase using SATVs. For an up-to-date list of available courses, please visit [emea.gkondemand.com](http://emea.gkondemand.com).

### Not sure if you have Software Assurance Training Vouchers?

You can ask your benefits administrator or procurement about your licensing agreement with Microsoft. If, for example, your licenses were purchased via Enterprise, Enterprise Subscription or even Open Value Subscription, you will have SATV entitlement. Other agreements have an optional purchase, so it's worth checking internally with your IT or Purchasing Manager, alternatively with your Microsoft representative.

### How Do I Redeem Software Assurance Training Vouchers?

The Global Knowledge SATV Advisors make redemption easy. With more than 75 eligible courses available via Classroom, Virtual Classroom Live and Private Company Training delivery, we can train you on the latest Microsoft technologies when and where you and your IT staff need it. Getting started is easy: contact your local Global Knowledge SATV Advisor today!
