Mois de la Cybersécurité

PUBLIC WIFI IS HIGH RISK

Here's how to minimize the damage.

- Know Who To Trust.
- Stick With HTTPS.
- Don't Give Away Too Much Info.
- Limit AirDrop and File Sharing.
- Check What You're Signing Up For.
- Use a VPN.

The HAUNTED DRIVE

Be careful what you plug into your computer.

Never use a flash drive from an unknown source.

PRACTICE SAFE-SURFING

Use a firewall

Click with caution - When checking e-mail or instant messaging, be careful not to click on links in messages from people you don't know.

Surf safely - When browsing the Web for financial institutions or other sites, take steps to avoid fraudulent sites that ask for personal information. Most legitimate sites don't ask for such information.
